

# PROJECT EVALUATION CRITERIA

**ASEQ**  
Foundation

## Evaluation and points: applicable criteria

Each criterion counts for a maximum of 5 or 10 points, depending on the category. Each criterion can be awarded anywhere from 0 to the maximum number of points.

1)	The project is predominantly carried out by students and involves their participation.	/10
2)	The project makes a real impact on the student community, among others, by responding to a concrete issue.	/10
3)	The project promotes the importance of student initiatives.	/5
4)	The project has an original and innovative approach.	/10
5)	The project includes a plan of action and communication that is coherent and realistic in order to reach its objectives.	/10
6)	The person in charge is making an effort to diversify sources of funding.	/10
7)	The role of the organization, committee, and team members, as well as their skills, relevant experience, and motivation, are clearly presented.	/10
8)	The budget proposal is realistic and respects the Foundation's selection criteria.	/10
9)	The project promotes objectives of environmental impact reduction.	/5
10)	The presentation of the project is clear and professional, particularly in terms of language quality.	/5
11)	General impression	/10
12)	Measures to promote inclusion	/5
